

MITCHELL COUNTY SCHOOL SYSTEM

We believe students realize success through active learning in different ways and at different rates.

We believe parents are essential in the education process.

We believe technology literacy is essential for student success.

We believe effective instruction is essential for student success.

We believe schools are responsible for modeling and cultivating civic, moral, and ethical values.

We believe grade to grade transition should be seamless.

We believe expectations should be clearly communicated to students, parents, and community.

We believe high school completion is the highest priority for all stakeholders.

We believe regular attendance by students and staff is critical for student success.

We believe community support and collaboration are essential to our mission.
